

Dr. Charlena Seymour Scholarship Judging Committee

Cristin Bruce is a Senior Scientist at Shell, currently working out of the Kuala Lumpur office.

Carol de Groot Bois, M.P.H., LSP, founded Bois Consulting Co., Inc. in Framingham, Massachusetts, in 1998. Ms. Bois has managed hazardous waste site investigation and remediation projects nationally and internationally for over 30 years. Her work includes Massachusetts Contingency Plan (MCP) site assessment and remediation sites, as well as Superfund, RCRA Corrective Actions, Brownfields, and ASTM Phase 1/Phase 2 due diligence projects at a variety of industrial, commercial, and residential properties, as well as environmental consulting work for non-profit organizations and municipalities. She is a Massachusetts Licensed Site Professional (LSP) and former President of the Massachusetts LSP Association. Prior to her work as a consultant, Ms. Bois was the Section Chief of the Site Assessment Branch in MassDEP's Central Region Office in Worcester, Massachusetts. Ms. Bois has a B.A. in Biology from the University of Rochester and an M.P.H. (Environmental Health) from Boston University School of Medicine. She is currently an active member of the LSP Association and is on the Scientific Advisory Board for the Annual International Conference on Soils, Sediments, Water, and Energy.

Millie Garcia-Serrano, M.P.H., serves as Massachusetts Department of Environmental Protection (MassDEP) Regional Director in the Southeast regional office, home to 84 cities and towns and the major islands of Martha's Vineyard, Nantucket and the Elizabeth chain. In this capacity, Ms. Garcia-Serrano manages the Commonwealth's environmental programs (air pollution, hazardous waste, emergency response, waste site cleanup, solid waste, water pollution control, water supply and wetlands protection) in this geographic area. Ms. Garcia-Serrano has 30 years of demonstrated public and private sector experience with focused expertise in hazardous waste site assessment and cleanup, brownfields redevelopment, compliance and enforcement, emergency preparedness, regulatory interpretation/policy development and natural resources damages. In June 2012, Ms. Garcia-Serrano accepted the prestigious New England Environmental Business Council Nicholas Humber Environmental – Energy Award for Outstanding Collaboration (NSTAR MGP Site) on behalf of MassDEP. Ms. Garcia-Serrano serves as a member of the Scientific Advisory Board for the AEHS Foundation's Annual International Conference on Soil, Sediment, Water, and Energy since 1998, the Committee for the same Foundation's Dr. Charlena Seymour Scholarship since 2015, and the Commonwealth's Trustee Representative on the Bouchard B-120 Natural Resources Trustee Council. She served as the Brownfields Support Team Leader for the City of Attleboro's Downtown Revitalization and Intermodal Redevelopment Project and the City of New Bedford's Payne Cutlery Project, which received the American Planning Association's Meritorious Land Use/Redevelopment Planning Award for exceptional performance in 2014. Ms. Garcia-Serrano has a B.S. in Biology from University of South Alabama College of Art and Sciences in Mobile, Alabama, and a Master's of Public Health from Boston University's School of Medicine in Boston, Massachusetts.

Susan M. Henry, Ph.D. is a retired Environmental Engineer with over 25 years of experience in environmental research, teaching, publishing, and consulting. While working on her doctorate at Stanford University, she researched biodegradation of chlorinated solvents, and expanded her expertise to investigation and remediation of contaminated soil and groundwater during her years as a consultant. Susan has served on the advisory board for the AEHS Foundation's Annual International Conference on Soil, Water, Energy, and Air for over 15 years.

Wally Hise, PE has a 32-year career in the architecture and engineering industry spanning operations, client management, strategic planning, and business development. He has worked for consulting and construction companies ranging in size from \$20 million to over \$1 billion in annual revenue. Wally's involvement with AEHS over the past 25 years includes conference attendee, presenter, and advisory board member. Wally holds a B.S. in Civil and Environmental Engineering, and has advanced studies in engineering and business. He is currently Vice President of Business Development at HDR Engineering, Inc. based on Omaha, Nebraska.

Leslie Karr, P.E., is a retired Environmental Engineer with 36 years of RDT&E experience with the Navy. She was most recently the Program Manager for the Navy's Environmental Research and Development program (NESDI) for five years. She now serves as a consultant to special projects for the Navy requiring innovative solutions. She has served on the AEHS Foundation Advisory Board for over 20 years.

John R. Mullin is a Professor Emeritus of Urban Planning in the Department of Landscape Architecture and Regional Planning and Associate Director of the Center for Economic Development at the University of Massachusetts Amherst (UMass). Between September 2001 and August 2012 he served as Vice Chancellor/Vice Provost for Outreach and Dean of the Graduate School. His research interests focus upon industrial revitalization, port development, and downtown revitalization. Dr. Mullin has written or edited over 130 book chapters, book reviews, technical reports, journal articles, and conference proceedings. He is a Fulbright Scholar, charter member of the Fellows of the American Institute of Certified Planners, and the recipient of the Chancellor's Medal, the highest honor bestowed to faculty at UMass Amherst. He is a retired, federally recognized Brigadier General from the Army National Guard.
