

**30<sup>th</sup> Annual International Conference on Soil, Water, Energy, and Air**  
**March 16-19, 2020**  
**San Diego, CA**

In light of Governor Newsom's Announcement late yesterday and the increasingly tenuous situation with regard to the Coronavirus (COVID-19), AEHS Foundation has decided not to hold the conference next week. While we sincerely regret the inconvenience of this late decision, the health and wellness of our attendees and surrounding community is of utmost importance.

We would like to thank our sponsors, presenters, exhibitors, and attendees for the ongoing support during this challenging time, especially this week, as we sorted through details and weighed options.

With that said, you may still participate in Workshop 5, "Why You Should Monitor Indoor Radon, Differential Temperature, and Pressure During Chlorinated Vapor Intrusion Assessments" which we are offering as a **webinar** on Tuesday, 3/17, from 8:30am-5:00pm PST. Please email [akondash@rti.org](mailto:akondash@rti.org) if you wish to participate.

Lastly, we ask for your patience and understanding while we work out the financial details and determine next steps. We will be back in touch with you soon.

Your friends at AEHS,

*Paul Kostecki*

*Brenna Lockwood*

*Amanda Michaels*
